Career Objective/Summary

Using my skills, education and experience to develop my career as a software engineer and help the company to achieve business goals by selecting or creating effective IT solutions in an international environment.

Work Experience

Senior Software Engineer at Calo - Dubai (from 2022)

Calo is a fast-moving food-tech startup doing food plans with millions of deliveries per year.

- Worked on Operation Squad and then moved to the newly formed Growth Squad focusing on user acquisition and retention.
- Delivered user-facing features and architectural revamps.
- Creating micro-services to work across the squads.
- Working on a fully serverless code base on AWS with IaC.
- gained a lot of experience while working along with engineers from leading firms.

Senior Software Engineer at Capgemini – Abu Dhabi (2021 - 2022)

Working as Senior Full Stack Developer for **Abu Dhabi Digital Authority TAMM Project**

- As a part of the incident management team.
- Quick response to finding and resolving issues was key.

- Managing and collaborating with various government entities to diagnose incidents.

Lead Software Engineer at Group Rhinos – Dubai (2018 - 2021)

Group Rhinos is a French-based firm, working here allowed me to gain a lot of experience working for clients both based in Europe and Dubai

- Led team 4 to archive the goals set.
- Architecting and developing scalable application solutions in a variety of platforms and technologies.
- Open mind approach to new and latest technologies.
- Used GraphQL for all the new APIs and for enhancing the Existing REST Apis
- Technologies and framework worked on: Flutter, React, NodeJS, JAM Stack (GatsbyJS, Strapi), Laravel(PHP).
- Integrated many cloud tools in projects like Firebase and Google cloud vision.
- Gained more experience and knowledge in DevOps from fully tailored servers of DigitalOcean to SaaS like google cloud functions etc.
- Setup and maintain CI/CD using CI CD tools.

Worked as a freelance Web Developer (2014-2019)

- Full stack web developer.
- Website creation and designing
- Developed various aspects of solutions for various clients in various technologies and platforms.
- Working on React, GraphQL, and NodeJS.
- Well experienced in Laravel MVC framework for PHP, jQuery, CSS, HTML5, MySQL, Android Development, Rest API and Git version control.
- Stay plugged into emerging technologies/industry trends and apply them to operations and activities
- Handling clients with different attitudes and knowledge base

Software Coordinator at Reem Capital Contracting Dubai (2017-2018)

- Coordinating ERP Implementation
- Handling HRIS
- Developing and maintaining employee self-service system for entire company
